

Educational Training Workshops

*Addressing Evaded Issues in Jewish Education addresses a range of social and emotional topics that are rarely discussed in educational settings. Naomi Less trains educators and parents who work with Jewish preteens, teens, or young women.*

*The training provides educators the right tools to deliver a safer and more positive learning environment for all learners.*

***Appropriate for camps, JCCs, day schools, congregational schools, youth groups, parents and other caring adults.***

*Training workshops are available to educators or educational venues that focus on inhibitors that prevent the implementation of Educational Jewish Moments or the ways in which practitioners can begin to integrate Educational Jewish Moments into their practice.*
